Supplementary Fig. S1. (A) Pie chart of SNP rs2846836 in the non-exercise- and exercise-induced asthma groups; $P=0.004$, OR $=2.01$ (1.26-3.43). (B) Pie chart of SNP rs11225138 in the mild and moderate-to-severe asthma groups; $P=0.003$, OR $=2.80$ (1.40-5.57). The percentages were calculated from case numbers. SNP, single nucleotide polymorphism; OR, odds ratio.
